

Launch of Timecycle Original

In 2008, after hearing about watch art, David began to tinker in his spare time with various old watch parts creating his first Timecycle Original motorcycle. Several years later, after fine tuning his technique, he began to share his watch art with family and friends, with their encouragement and positive feedback, he continued to create Timecycles. In April 2013, he donated a Timecycle to the Annapolis Region Community Arts Council's fundraising auction, Going Once Going Twice. There, the arts community had an opportunity to see his work and he was encouraged by their interest in the watch art. In August 2013, David's Timecycle watch art went on display and is for sale at The Flight of Fancy, an art gallery and craft shop in Bear River, Nova Scotia.

See [here](#) for more information on Timecycle Original.
